

MAISSA MATHLOUTHI

Fullstack Developer | Cybersecurity Graduate Student

Location: Tunis, Tunisia (UTC+1) • Phone: (+216) 53 90 95 69 • Email: maissamth@gmail.com

Portfolio: maissa-mathlouthi-portfolio.vercel.app • GitHub: github.com/someart • LinkedIn: linkedin.com/in/maissa-mathlouthi

OBJECTIVE

Master's graduate in Computer Systems and Network Security with proven hands-on experience in full-stack web development, IoT systems, and secure application design. Skilled in building scalable, user-centred platforms using React, Next.js, Node.js, and TypeScript, with a strong foundation in cybersecurity principles. Seeking an IT role where I can contribute across both development and security disciplines.

EDUCATION

M.S.Computer Systems and Network Security | Higher Institute of Applied Sciences and Technology of Mateur • 2023 – 2025

- Covered network security, cryptographic protocols, system hardening, and secure application development.
- Completed end-of-study project: GREEN – a smart coffee ordering platform with chatbot integration (Next.js, React, Tailwind CSS, Agile/SCRUM).

Applied License — Network and Systems Engineering | Higher Institute of Applied Sciences and Technology of Mateur, Bizerte • 2020 – 2023

Bachelor's Degree in Experimental Sciences | Bizerte, Tunisia • 2020

PROFESSIONAL EXPERIENCE

Development Intern | White Bulbul Solutions • Feb 2025 – May 2025

- Built GREEN, a digital-first coffee ordering platform with a smart chatbot for personalized recommendations and centralized order tracking.
- Implemented mobile-responsive design using Next.js and Tailwind CSS; followed Agile (SCRUM) methodology.
- Gained practical experience in secure API integration and real-time data management.

Freelance Developer | Red Dream Solutions • Feb 2024 – May 2024

- Independently developed the company's full website from Figma designs using Next.js, React, and Tailwind CSS.
- Integrated internationalization (i18n) for multilingual accessibility and implemented GitLab CI workflows.
- Ensured cross-browser security best practices and smooth animated UX transitions.

Customer Service Agent | Assist Digital • Jan 2025 – Aug 2025

- Supported international customers, resolving booking issues and managing reservations in a fast-paced environment.
- Strengthened communication, problem-solving, and conflict-resolution skills — key competencies for cybersecurity incident response.

Development Intern | Config. • Feb 2023 – May 2023

- Designed and developed a responsive front-end (HTML, CSS, JavaScript, Bootstrap, React).
- Built back-end services with Node.js and MongoDB, ensuring seamless full-stack integration.

TECHNICAL PROJECTS

Connected Food Dispenser for Pets (IoT) | Academic • 2024

- Designed and built a networked IoT device using ESP32, C++, and HX711 load sensors to automate food distribution.
- Implemented a web server with real-time visual and sound alerts — demonstrating embedded systems security awareness.

Weather Mobile Application | Academic • 2024

- Developed a cross-platform app with React Native (Expo) and TypeScript integrating OpenCage and OpenWeatherMap APIs.
- Applied secure API key management and data validation practices.

Plants Shop Website | Academic • 2022

- Built a fully functional e-commerce front-end with HTML5, JavaScript, React.js, and Bootstrap.

TECHNICAL SKILLS

Security	Network security, Cryptographic protocols, Secure software development, IoT security
Frontend	React.js, Next.js, React Native, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, MongoDB, REST APIs
Tools & DevOps	Git, GitLab, GitHub, Docker, Visual Studio Code, Android Studio, Figma, Canva
Other	Agile/SCRUM, Embedded systems (ESP32, C++), Hadoop, Cisco, VM
Languages	Arabic (Native) • English (Professional) • French (Working)
